Policy/Business Analyst

ABOUT THE MWH:

The Megawatt Hour platform is designed for finance professionals, energy and facilities managers and consultants seeking better energy outcomes. MWh's goal is to transform the energy industry in the interest of end-use customers. The online software is designed for professionals who want to lower energy costs, manage energy expenses and information quickly, easily and with better results. We provide businesses, hospitals, colleges, universities, consultants, and advisors with cost and price transparency and we deliver time and cost savings.

Job Description

ROLE AND RESPONSIBILITIES

The MWh WIE Policy/Business Analyst will conduct a complete review of NY City and NY State-based carbon/energy policies for MWh. The goal of the externship is to understand and communicate the implications of recent City and Statewide legislation and the impact of these policies on MWh customers (large energy users, hospitals, colleges & universities). In addition to articulating the specific expected impact of these policies on clients, we expect the extern to translate the policy impact into proposed product options for MWh software. As such, we ask the successful intern/extern to spend part of the externship understanding the information and analytics developed and implemented in MWh software.

EXTERNSHIP REQUIREMENTS

MWh externship will require no less than 15 to 20 hours per week of time. Candidates can work remotely, but MWh expects interns to be available to present their work once or twice a week, depending on the week. The successful candidate will be a highly motivated self-starter with an entrepreneurial spirit.

PREFERRED SKILLS

Technology, business experience preferred but not required.
